# **IMPORTANT: BEFORE YOU GET STARTED! PLEASE READ FIRST**

## **Getting Started with Your UNITE NFC Card**

Before you log into the Unite Card section of **JoinUniteNow.com** to begin designing your Unite NFC connect card, please review the following important instructions to ensure a smooth and successful setup:

### **1. Email Compatibility**

Some older email providers such as **Yahoo**, AOL, and similar email providers might not function properly with the system—at: ([joinunitenow.com/vCardgo/login](http://joinunitenow.com/vCardgo/login)) even if you used that very same email previously to sign up as a UNITE Affiliate.

- If you experience issues, simply create a new email address. We recommend using **Mail.com** or another modern email provider.

### **2. Designing Your Virtual Card**

Most people can design their virtual card on their own. In about 20 minutes. However, the process is often **faster and much easier with assistance**. To get started, have the following accessible:

- Quality photos to upload
- Background images (optional)
- Your social media URLs ready to **copy and paste**

### **3. Customizing Your Design**

You are encouraged to experiment with the provided templates to make your Unite NFC connection card unique to you and/or your business :

- Try different layouts, colors, and images
- Adjust your text and branding
- Ensure the preview of your virtual card looks **exactly how you want it to appear** when you share it with others.

### **4. You Can Always Update Later**

Your card is flexible and can always be updated anytime, for as long as you are an active member. You can always return to your profile to:

- Edit your information
- Change images or links
- Improve your design over time

If you need help: Email: [Support@JoinUniteNow.com](mailto:Support@JoinUniteNow.com)

- Or contact your **Sponsor** or Success Mentor

### **5. Purchase & Activation (No Refund Policy)**

After saving your design, you must purchase your NFC card to Activate your Affiliate Membership.

- All NFC cards must be purchased **exclusively** through the **JoinUniteNow.com “Shop”** section
- This ensures proper activation and full system functionality

### **IMPORTANT:**

All NFC card purchases are **final and non-refundable**. Please review your design carefully before purchasing to ensure it meets your expectations.

---

## **Your 3-Step Process to Success**

1. **Sign up as an Affiliate at: [JoinUniteNow.com](http://JoinUniteNow.com)**
2. **Then Design your Unite NFC connect card**
3. **Purchase your NFC card** through the **JoinUniteNow.com Shop** and make sure you are **subscribed although your subscription will not begin for 30 days after your purchase**

# The Basics: Set-up Your Unite Card Step-by-Step

JoinUniteNow.com

If possible use a laptop or tablet but if you're using your phone (which you may care to turn horizontally) be patient with yourself as you in-put data unto your virtual Connect Card.

**Step-1:** Go to [JoinUniteNow.com](http://JoinUniteNow.com) and Register for your Unite Connect Card which is different and separate from Registering as an Affiliate of Unite. Click where it informs you to register for your Unite Connect Card

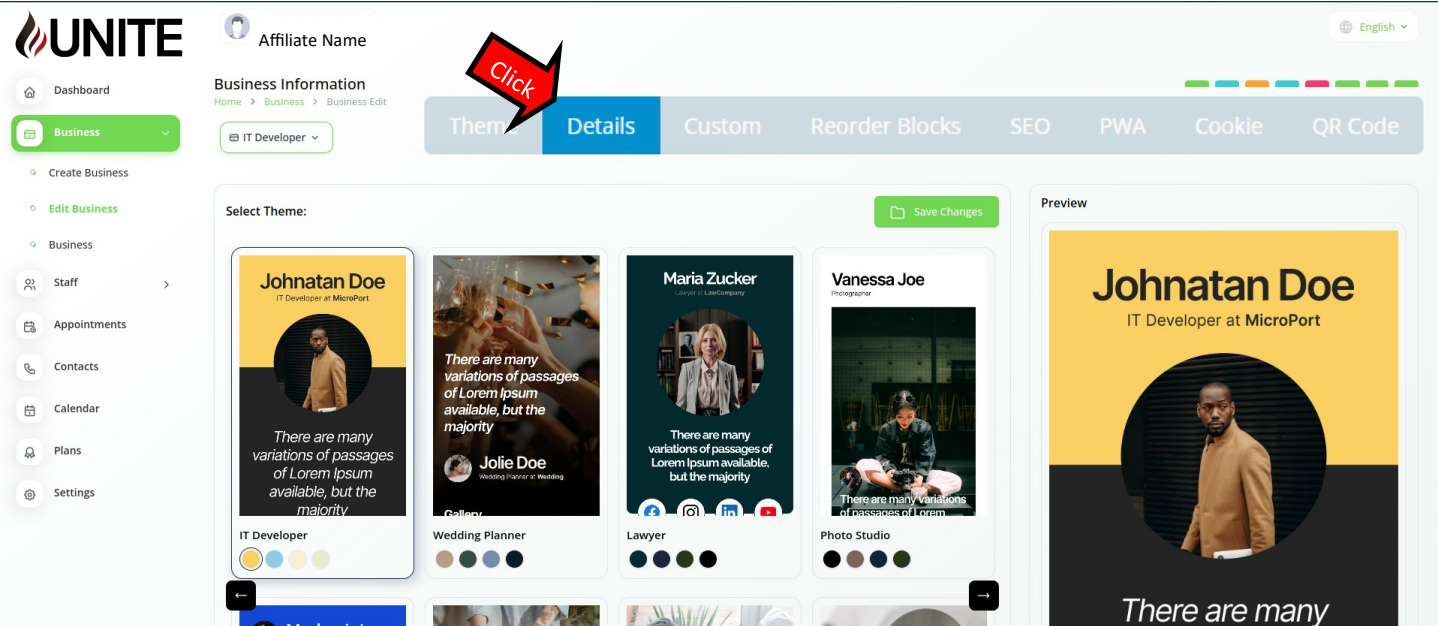

**Step-2:** Login and fill in your credentials, such as your full name, email, password and the confirmation of that password. **Note:** (its ideal to use the same credentials as your Unite Affiliate Sign-up registration). Be sure to **click** the terms & conditions box. **Next** you'll receive a pop-up asking you to verify your email address by clicking on the link emailed to you. Clicking that link will take you right into the virtual card creation platform

**Step-3:** Once you've logged into your Unite virtual card dashboard, "Manage Plan" will appear where it's advised you select the Affiliate Plan. Click "Trail" to begin uploading your contact details or "Subscribe" if you're ready to activate your account and pay now (which qualifies you to earn commissions from your Unite Member's Network) Briefly a "Congratulations" will appear and disappears so don't worry if you missed it. Note at the bottom of your plan you will see the date that your trail expires.

**Step-4:** Next to your name on the 3-lines (on phone) or underneath the Unite Logo select "Business" a drop-down will appear where you can select "Create Business." Enter your "Title" (the name of your business or your name). Then select your

"Category" from the limits set in the drop-down, and then move on down to selecting your "Theme" (click theme and color; then notice a border/highlight will appear around your selection} after which, click the "**Create**" button at the very bottom of the page.

**Step-5:** The next page called "Business Information" will appear with a preview of the virtual card you selected on the right of your screen under neath the word "Preview". In the light-blue or gray shaded box where Theme is highlighted clicking "Details" will allow you to input your information. Here you can choice a "Banner" (your up-loadable background image) and a "Logo" (where you might upload a personal photo or the logo of your establishment, company or business)

**Step-6:** Be prepared to Copy & Paste your social media addresses as you will need them during this step.

**“Title”** has already be filled-in and the field; **“Designation,”** simply means your **job title, role, or position.** The **“Sub-Title”** is like a short tagline that goes **under your Designation/Job Title.** You can actually write anything you want here like a website or your Cash App. Confirm your **“Category”** and add a **“Description.”** Your **“Personalized link”** should already be fill-in automatically (make sure not to change this). **Next,** work on following the prompts in your **“Settings”** as they apply consisting of:

- [ ] **Contact Info:** The section where you add your phone number, email, address and website
- [ ] **Business Hours:** Here you might place the hours of operation for your business
- [ ] **Appointments:** Here you might share the times you have available to schedule appointments
- [ ] **Service:** Here you can visually list the services and or products you have available
- [ ] **Product:** Showcase the items you want your clientele to see
- [ ] **Testimonials:** Let your viewers see what others have had to say about your business
- [ ] **Social:** Here is yet another sections that allows you to place a social media link
- [ ] **Google Map:** Allow customers to see exactly where you are located
- [ ] **App Detail:** Here you can indicate where on the Google or Apple App Store you can be found
- [ ] **Payment:** If you have a product or service for sale then here you can input the details for payments
- [ ] **Gallery:** Showcase your product or services visually
- [ ] **Custom HTML:** Link a website or Affiliate link here
- [ ] **Thank You:** Select a preset design that expresses your gratitude to your visitors

After you have set all the Toggles that apply to your business, service or product brand you can return to and change or update information at any time and as often as you would like, then Save your changes. **Note:** you will be required to add a (logo) picture/banner of some sort business, personal or otherwise) in the in order to **“SAVE”**

Then **“Save Changes”** at bottom of the page

Lastly, go to: <https://JoinUniteNow.com/product-category/unite-card/> (then pay for your card)

# ADVANCED FEATURES: The Unite Card

- Theme
- Details**
- Custom
- Reorder Blocks
- SEO
- PWA
- Cookie
- QR Code

Great job getting started with your Unite Connect Card! Now that you've set up the basics, it's time to unlock the more advanced features that really make your card stand out. Every feature you use helps you connect more effectively and present your brand and yourself in a powerful and unique way. Take it one step at a time, and remember, each new feature you explore is an investment in your growth and success. Keep moving forward — your future is waiting!

## FEATURES:

- A. WhatsApp Number
- B. Click to Copy Your Link
- C. Business Analytics
- D. Business Calendar & Appointments
- E. Your Unite Card's QR-Code
- F. Business Contacts (exported or entered into your card)
- G. **Delete (careful not to destroy your work)**
- H. Download
- I. Preview (your entire card)

## Blue Menu FEATURES:

- [ ] **Theme:** Allows you to select a different theme (**Additional businesses require separate cards**)
- [ ] **Details:** Allows you to in-put information such as your number, email, social media and more
- [ ] **Custom:** Custom CSS (Cascading Style Sheets) is code you can add to a website or app to **change how it looks** without changing its main structure or content. Think of it like **personalized clothing for your website**: the site already works, but CSS lets you decide the colors, fonts, spacing, button shapes, backgrounds, and other design details.
- [ ] **Reorder Blocks:** Allows you to drag and drop (rearrange the order that information appears on your card)
- [ ] **SEO: Search Engine Optimization** is the process of making your website easier for search engines like Google, Bing, or Yahoo to **find, understand, and rank** so more people can discover it when they search for things online.
- [ ] **PWA: Progressive Web App.** It's basically a website that works and feels like a **mobile app**, without needing to be downloaded from the App Store or Google Play.
- [ ] **Cookie:** A is a **small piece of data** that a site saves on your computer, phone, or tablet when you visit. used to **remember you** (so you don't have to log in every time).
- [ ] **QR-Code:** (short for *Quick Response code*) is a type of **scannable barcode** that can store information like a website link, contact details, or payment info.
